WEDNESDAY, SEPTEMBER 4, 1745.

Rome, August 21.

On the 16th of this Month there was held, in the Presence of the Pope, a particular Congregation, at which assisted the Cardinal-Dean of the Sacred College, and the Cardinal-Chamberlain, the Secretary Gentili, M. Ercolani, and several others. The Point under Consideration was a Proposal for enlarging the Town of Sinigaglia, on account of the Inhabitants increasing annually in such a manner, that they have been already obliged to build many new Houses in the Fields. The Family of Ercolani, which is much the richest in that Part of the Country, has offered to contribute a considerable Sum of Money towards building the Walls of this new City; but how far this Resolution was taken on this Subject, tho' this is the Second Congregation in which it has been debated; but the Affair was postponed to a Third Congregation, for which the Day is fix'd.

Rome, August 28. There was this Day grand Gala given, on Account of its being the Birth Day of the late Dowager; and no Holiday of the Kind has been celebrated, for a long Time, with greater Splendor. Every Thing is disposing with the utmost Diligence for the Queen's Journey to Frankfort, whither, it is at last agreed, the Arch-Duke Joseph shall accompany her. Her Majesty's Baggage is set out this very Day. We expect here daily the Guard of the Grand Duke of Florence, excepting a Company only, consisting of 100 Men, who have Orders to proceed directly to his Majesty's Head Quarters on the Rhine. The Queen has lately given to the great Hospital of this City, the Lordship of Ebersdorf, and all its Dependencies, which is of very great Value. The Medals that have been struck for the Coronation, are wonderfully beautiful; and it is said, her Majesty has ordered twice the number that was at first designed. A Courier from Vienna Charles arriv'd this Morning, but the Contents of the Dispatches are kept very secret.

Vienna, August 30. The Count de Harzfeldt, Chamberlain to his Serene Highness the Elector of Cologne, arriv'd on the 23d from Bonn: The same Evening he was with the Count de Preysing, Grand Chamberlain of the Court, to whom he delivered his Letters Credentia. And the next Day, being the 24th, he went to the Archbishop, where he had an Audience of our Sovereign, the Elector: And on the 25th he was admitted to the Honour of paying his Compliments to the late Dowager. It is publicly said at Court, that a Treaty has been sign'd at Hanover, by which 8000 of the Prussian Troops are to enter into British Pay, and 4000 more to be employed in the Service of Holland. This is a Point of no less Consequence to the Queen of Hungary, and her Allies, than to the Elector, our Sovereign: notwithstanding the Reports that have been spread, that the Subjects of this Country were universally dissatisfied with the present Conduct of Things, yet there is no Sort of Question to be made, that his Serene Highness will be able to perform all his Engagements, and thereby restore the Power of the House of Austria, in such a Manner, as that there need be no future Apprehensions of her being so suddenly attacked; and that she is in great Danger to herself, and all Germany, as has lately been.

Hildesberg, September 3. The Grand Duke's Army remains in much the same Position it did, and is daily receiving Reinforcements, sometimes of one or two, sometimes of more, Battalions. A Person of Distinction lately arriv'd thro' our Quarters with his Polish Majesty's Pals from Mannheim. We are since inform'd that it was the Count Gaisotti, who is a Minister in the Service of the King of Sardinia. He has been already at the Courts of Dresden and Munich, and it is believed will proceed from Mannheim to Frankfort; but to what End this Negotiation tends, is an impenetrable Secret; tho' it will have it, that he is desirous of uniting his Dominions to the Germanick Body, on Condition that he be the Quality of an Elector, at the same Time that his Majesty be bestowed on the Landgrave of Hesse Cassel.

Leipsic, September 1. There has for some time prevail'd a strong Report here, as if the Prince of Anhalt, with 30,000 Prussian Troops, have broke into the Electorate of Saxony, and ruin'd all the Country with Fire and Sword. This appeared to all thinking people very improbable and absurd, even when it was first strongly asserted; and the Event has shown they were in the Right; for these Prussian Troops have

committed no Hostilities whatever, and appear plainly to have no other Design than passing thro' the Electorate of Saxony, to Erfurt and Frankfort, in order to traverse the Election of the Grand Duke.

Dresden, September 5. By General Renard's Report from Wellin, near Kottin, of the 2d Instant, the Duke of Weissenfels is inform'd, that the King of Prussia had detached, some say 6, others 10,000 Men, towards Gitschin; and it seem'd at first uncertain, whether he intended to prevent General Renard's March with his Detachment to Saxony, or to go towards Zittau, which is now thought to be his Design, as they, the Prussians, went from Gitschin to Turnau, notwithstanding they had ordered Bread and Forage at Jung Buntzel. It is likewise said, that the said Prussian Detachment is to be followed by another of the same Force. On this Intelligence, his Highness immediately dispatched a Courier to Prince Charles, to desire he would detach Corps equal to those from the Prussian Army. General Renard was inform'd, that two Prussian Battalions had been cut to Pieces by the Austrians; but the Duke has no Advice of it from the Army.

Hague, September 10. By this Day's Letters from the Army we hear, that the French have march'd off, and re-passed the Dender. The First Division of the Hessian Troops, that are marching to the Army in Brabant, consisting of three Battalions, of 800 Men each, arriv'd at Bockholt on the 8th Instant, and is to be at Arnheim on Monday next, seven Days sooner than expected; and a Dutch Commissary is order'd to be at Grave on the 13th Instant, to conduct them thro' the Territory of the Generality. The two other Divisions are following with all Speed. The Imperial Election at Frankfort is fix'd for Monday next, the 13th Instant. Newport is said to have surrender'd on the 5th Instant.

## LONDON.

There are private Letters from Frankfort, which say, that some Proposals have been made to the Courts of Berlin and Mannheim, which have been so well received, that there are great Hopes the Election of the Grand Duke will be unanimous.

By the same Letters we learn, that a Report prevails, as if a Treaty of Marriage was on Foot between the Elector of Bavaria and the Princess Charlotte of Lorraine, which is to be solemnized soon after the Coronation.

Some Advices from Hamburg mention a Cessation of Arms between the Prussians and Saxons; but either this News is absolutely false, or they only mean the Prussians have hitherto committed no Hostilities in Saxony.

His Majesty has appointed this Day at Two o'Clock, to receive the Address of the Lord Mayor and Court of Aldermen on his safe Arrival; and this Week an Address will be presented by the Common-Council on the like Occasion.

Yesterday died, at his Lodgings in Old Fishstreet, Mr. Ogle, many Years an eminent Broker in Exchange Alley.

Last Friday the Lords of the Admiralty were pleas'd to appoint the Rev. Mr. Robert English to be Chaplain to the Royal George.

Last Week the Rev. Robert Benn, D. D. and Fellow of Queen's College, Oxon, was prefested by the Provost and Fellows of the same, to the Rectory of Charlton upon Otmore, in the County of Oxford.

Several of the Officers, whose Conduct in the late Engagement off of Toulon is to be enquired into at a Court Martial, having applied to the Lords Commissioners of the Admiralty to bring their Trials on as soon as possible; and the Prosecutors for the Crown having inform'd their Lordships, that every Thing may be got in Readiness in about Three Weeks, to begin with their Trials, their Lordships, in Compliance with their Requests, do hereby give Notice, That instead of the 1st of October, they have appointed Monday the 23d Day of September, for the Flag Officers and Captains, who are to compose the Court Martial, to assemble on board his Majesty's Ship the London, at Chatham, and to proceed upon the Trials of the said Officers, and to continue the same daily, until the whole is finish'd; beginning with the Trials of the Lieutenants, next with the Captains, and lastly, of the Flag Officers. And their Lordships do hereby charge and require all Parties concern'd, either as Evidence for the King, or for the Officers to be tried, to attend diligently at the respective Trials, as they will answer the contrary at their Peril.

Admiralty-Office, September 2, 1745.

Whereas some of the Petty-Officers and Foremast-Men, late belonging to his Majesty's Ships the Chichester, Rippon, and Montague, have sail'd in their Duty, by not repairing on board the Ships they were order'd, and do thereby merit, besides Forfeiture of their Wages, the Martial Law being put in Execution against them: The Lords Commissioners of the Admiralty being, however, willing to put by their Offence, do hereby strictly direct them not to fail to repair immediately on board his Majesty's Ship the Tilbury, sitting out at Portsmouth; which if they do not do, so as to be on board her, on or before the 6th Instant, they shall be proceeded against with the utmost Severity of Martial Law; the Marshal of the Admiralty having Orders to take up all such of them as shall be found on Shore after that Day.

 Spirits to a Miracle, and are admirable in all Nervous Com-  
 plaints; for they strengthen the Stomach, remove all Sick-  
 ness, cause a good Digestion, and are a present Remedy for  
 the Hiccoughs or Heart-burn.

They far exceed Spirits of Hartshorn, Lavender, and Sal  
 Volatile, both in Efficacy and Pleasantness, and are the best  
 Things in the World, taken in Whey, to carry off Colds; and  
 the Beginning of a Fever; they thin the Blood, promote Per-  
 spiration, cause a gentle Sweating, compose the Spirits, and  
 ease all Pains of the Head or Neck.

They are excellent to take off all nauseous and offensive  
 Smells, and prevent Infections from unwholesome Air, Fevers,

**The Famous BALSAM of HEALTH;**  
**Or, FRIAR'S Balsam Improv'd.**

**THIS** excellent Medicine, which is a

Composition of the finest natural Balsams, is so friendly  
 to the Constitution, so soft and balsamick in its Operation,  
 and affords such great Relief to the Animal Oeconomy, that it  
 merits, in the greatest Degree, the Title which is here given  
 it, of *Balsam of Health*; there being indeed few Chronical  
 Diseases but what will be entirely eradicated by a continued  
 Use of it. For it greatly warms the Nerves, refreshes the  
 Spirit, prevents Defluxions, promotes the Circulation, and  
 dissipates, by insensible Perspiration, all superfluous Moistures,  
 which are the Occasion of almost innumerable Disorders, and  
 therefore must be, as every one, that knows any thing of the  
 Nature of Medicines, is sensible (and as is proved from the ex-  
 perience of Thousands that have used it) one of the most no-  
 blest Medicines in the World for most inward Decays and  
 Weaknesses, Consumptions, Shortness of Breath, Coughs,  
 Colds, and Asthma's, Pains in the Stomach, Spitting of Blood,  
 Rheumatism, Wandering Pains of the Joints, Ulcerations in  
 the Kidneys, Scurvy, Scrophulous Complaints, King's Evil,  
 Wind Cholick, and Gravel, and affords great Relief in those  
 two obstinate, and almost incurable Complaints, the Gout  
 and the Stone.

Nor are the excellent Qualities of this Balsam confin'd to  
 inward Complaints only, but in the same Manner as it acts  
 internally unseen, it will demonstrate to our Eyes its healing  
 Properties outwardly, and is a speedy and certain Cure for all  
 flesh Wounds and Bruises, both in Mankind, and all other  
 Animals, as Dogs, Horses, &c. and is therefore particularly  
 recommended as a very good Pocket Medicine for Travellers,  
 Sportsmen, &c.

This Balsam is appointed to be sold by J. Newbery, at the  
 Bible and Sun, near the Chapter-House in St. Paul's Church-  
 Yard, at One Shilling the Bottle.

**The only short and infallible Cure**

for that reigning Disease the SCURVY, and all Scrophulous Humours,  
 tho' arrived to the highest and most inveterate Degree, or of  
 ever so many Years standing, and that without any sensible Eva-  
 cuation or the least Purgings, which by an unaccountable Mistake  
 is generally advised, although always found rather to increase and  
 confirm the Scurvy than cure it.

By the so much famed and most pleasant Chymical DROPS:

**WHICH,** without the least Trouble,

Confinement, or any Disorder whatever, do at once strike  
 at the true Cause of the Scurvy, and intirely destroy it, and all  
 Scrophulous Humours and Effects, Root and Branch, so as never to  
 return again, as many Thousands of both Sexes have experienced,  
 and as all who take them in 3 Days time will be convinced; for  
 they almost instantly alter the morbid State of the Juices, purify the  
 Blood, sweeten all the Fluids, cleanse them from Impurities, and  
 directly clear the whole Habit from all Spots, Blisters, black and  
 blue Marks, Itchings, foul Eruptions, or Breakings out, Weariness  
 of the Limbs, languid Heaviness of the whole Body, wandering  
 Pains, Weakness of the Back, and all the vast Variety of Symp-  
 toms by which the Scurvy imitates and often lies concealed under  
 the Appearance of the Rheumatism, and many other Distempers.

And for strengthening the Stomach, immediately creating a good  
 Appetite, causing a regular and easy Digestion of Food, and curing  
 all windy Effects and Disorders of the first Passages (whence pro-  
 ceed Head-achs, Vapours and other Indispositions) no Bitters nor any  
 other Medicine upon Earth can compare with them, inasmuch  
 that besides infallibly curing the Scurvy in all its Shapes and Ap-  
 pearances, they also assuredly and immediately cure the Green-sickness  
 in Virgins, Worms of all Kinds in young or old, and almost all  
 other Chronick Diseases, (which are chiefly occasioned by Indigestion  
 and stultic Crudities in the Stomach and Bowels) and certainly  
 prevent Fevers, Agues, and other acute Illnesses.

They are wonderfully Cordial and Restorative, strengthen and  
 enliven the whole Machine, and as soon as taken, make the Patient  
 pleasantly Lightheaded, brisk and Vigorous to admiration, and are  
 good for all Sorts of Persons, to preserve as well as to procure a  
 sound and healthy State of Body.

But the great Reputation these famous fam'd and pleasant Chy-  
 mical Drops have to universally gain'd among Persons of Eminence,  
 for their suddenly and infallibly curing the Scurvy and all Scrophu-  
 lous Humours, and other Chronick Diseases, in such an easy and  
 agreeable Manner, have occasioned many to imitate them, some  
 under the same, and others under other Names: Be careful there-  
 fore not to be deceiv'd, but be sure to have the Right, which by  
 the Author's special Appointment, are to be had only at the Gen-  
 tleman's, at the Two Blue Posts, in Haydon-Yard, in the Mi-  
 nority, at 1 s. 6 d. a Bottle, with Directions.

**THE** Daily Success which has co-

stantly attended the taking Dr. BATEMAN's  
 PECTORAL DROPS, in the several Distempers of Co-  
 Coughs, Pains in the Breast, Limbs, and Joints, has gain'd  
 them so universal a Character, that few Families care to  
 without them in their Houses.—Besides the Ditem-  
 above-mentioned, there is no one Medicine, since the Dis-  
 very of the Art of Physick, that will give a speedier Re-  
 and Ease in all Rheumatick Pains, Gout, Stone, Gravel, Co-  
 lick, &c. Innumerable Instances might be given of  
 happy Effects thereof, but we chuse to refer to a Book, call'd  
 A Short Treatise of the Virtues of Dr. BATEMAN's  
 PECTORAL DROPS, given gratis, at the Warehouse abo-  
 said; where all Shop-keepers, &c. in any City, Town,  
 Village, where these Drops are not already sold, may be  
 plied, with good Allowance to sell again, by directing  
 sending to the Patentee,

BENJAMIN OKELL,  
 Wm. and Cluer Dicey

&c. The surprizing Encouragement, which by a  
 Success, these most valuable Drops have, for upwards  
 Twenty Years, met with, not only in Great-Britain  
 Ireland, but in all Parts of the West-Indies, and other  
 reign Countries, has lately induced several mean and re-  
 cenary Pretenders to counterfeit them; and by imitating  
 Seal, Bill of Directions, and Show-Boards, with our Met-  
 of Advertising, as near as they can, or dare to do, with-  
 making them the same, thereby impose their dangerous Co-  
 positions upon the unwary and credulous Shop-keepers both  
 Town and Country, for the True and Genuine Sort.

The Patentee and Company therefore, in Gratitude for  
 universal good Reception they have so long met with, and  
 the Safety of those who for the future may be desirous of us-  
 the same, think themselves absolutely obliged to give this  
 cessary Caution;

Which they earnestly request may be observed,

That the Bottle they buy is not  
 seal'd with the Boar's Head, but has  
 these Words round it, BY THE KING  
 PATENT, as in the Margin; and al-  
 hat the Names of the Patentee, Ben-  
 Okell, William and Cluer Dicey, be-  
 the Bill of Directions given with each  
 Bottle; without which, you may be de-  
 sur'd it is a notorious Counterfeit, and  
 may be of the most dangerous Consequence.

**BETTON's Only True British Oil,**

Published by Virtue of the KING's Royal Letters  
 Patent.

**WE,** Michael and Thomas Betton, In-

ventors and Patentees of the said only true British  
 Oil, having, since June, 1743, discontinued supplying Mr. C-  
 let with the same, give this publick Notice, That it is a  
 fold Wholesale and Retail, by our special Appointment,  
 William and Cluer Dicey, and Company, at Dr. Bateman's  
 Warehouse in Bow Churchyard, London; where all Merchant  
 Captains of Ships, Shop-keepers, and others, are desired to  
 ply for the same.

Michael Betton,  
 Thomas Betton.

This Oil is an effectual Remedy for many Disorders in-  
 dent to Human Bodies. It is an absolute Cure for all Scrophu-  
 lous and Rheumatick Diseases, for all old Contusions and  
 Contractions of the Nerves, or contracted and withered Limbs,  
 Strains, Ulcers, old Sores, all fixed and wandering Pains; it  
 dissolves Nodes, cures the Palsy, Lameness, Swellings, Inflam-  
 mations, St. Anthony's Fire, and King's Evil; takes away  
 all Blackness of a Fall or Bruise in an Hour's Time, and  
 lays all Swellings that usually attend such Accidents. It cures  
 all green Wounds and Cuts, if speedily applied. Is an almost  
 infallible Remedy for the Rickets in Children; is a certain  
 Cure for the Leprosy of ever so long standing, very much help-  
 to knit broken Bones, and is an excellent Antidote against  
 Poison. Inwardly taken it cures Ulcers of the Lungs, Short-  
 ness of Breath, Consumptions, Phthisick, Coughs, and almost  
 all Disorders of the Breast or Lungs; it also cures Deafness  
 Admission; it cures all Surfeits in Cows or Horses; all  
 Hardness or Stoppage in the Maw, the Maggots or Mange  
 Sheep, &c.

N.B. It will expel Poison, heal the Bite of a Mad Dog,  
 and is an absolute Cure for the most obstinate Itch that has baffled  
 the Force of all other Medicines.

\* Observe, That the Bottle  
 which contain the said only True  
 British Oil, are sealed with the  
 Arms, as in the Margin, and the  
 Words, (BETTON'S BRITISH OIL)  
 BY THE KING'S PATENT round  
 it; all others being notorious  
 Counterfeits.

And whereas several mean  
 People have of late made a Trade  
 of Hawking an Oil about the  
 City and Country, from Door to  
 Door, by the Name of the  
 British Oil; which they impose  
 on the credulous Shop-keepers,  
 others, for the True Sort: We think it our Duty to caution  
 the World against such scandalous Counterfeits, and in Contempt  
 in Opposition to our most valuable Oil, and in Contempt  
 of his Majesty's Patent.
